Career Objective

Aspiring Full Stack Web Developer passionate about building modern, scalable, and user-focused web applications. Seeking a 1–2 month remote internship to enhance technical skills and contribute to real-world projects using Next.js, TypeScript, and MongoDB, with strong interest in backend systems, APIs, and production-ready applications.

Technical Skills

Frontend: Next.js, React, TypeScript, Tailwind CSS

Backend: Next.js API Routes, Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT Authentication

Database: MongoDB (Basic)

Tools: Git, GitHub, Postman, Vercel, Netlify, Render

Experience

Freelance Full Stack Web Developer Remote — 2024 – Present

- Delivered multiple full-stack projects including AI-based platforms and business websites.
- Built scalable web applications using Next.js, TypeScript, and MongoDB.
- Collaborated with clients for requirement gathering, development, and deployment.
- Focused on backend development and secure API integrations.

Projects

AI Powered Finance & Productivity Tools — AI-driven platform for financial analysis and productivity optimization.

[Live Demo](#) — [GitHub](#)

Impulse Pathology Lab Website — Medical diagnostic website with online test booking and Razorpay payment integration.

[Live Demo](#) — [GitHub](#)

Fin-Nexus AI — AI-powered financial assistant providing personalized investment insights and data visualization.

[Live Demo](#) — [GitHub](#)

Road Pothole Reporting System — Full-stack web app enabling citizens to report potholes using geolocation.
